Product and Description

Part Number: PL1100B-1X15ZNT

Description: High tenacity, continuous filament polyester yarn twisted to form an essentially round single strand (1 end up). The material is bonded with a liquid nylon resin to increase abrasion resistance and improve handling characteristics.

Additional Information: This material is utilized to overbraid electrical wire and cable and provides improved thermal and abrasion resistance properties. Other colors than those listed below can be manufactured (Solution Dyed).

Specifications for Standard Package New England Butt Braider tubes listed in Standard Packaging Specification below:

Tube Length: 5 1/4"

Tube ID: 5/8"

Tube OD: 7/8"

Attributes

Standard Package: 3.5oz. or 3000ft per tube

Mil Spec: Mil-C-572, Type PSTR

Standard Color(s): Natural

Other Colors Available: Yes

Yarn Size: 1100 Denier

Construction: 2 1/2 -3 turns per inch

Finish: Liquid Nylon (3 - 5%)
