

ELECTRICAL INSULATION

# GES

## Product Highlights

- Operating temperature from -60°C to +220°C (-76°F to +428°F) (Class H)
- Diametrical expansion 1.3
- Flame resistant
- EN 45545-2
- Zero Halogen
- 4 kV or 10kV dielectric strength

## Installation Features

- Very flexible
- Local reinforcement of electrical insulation
- Electrical Cabinet
- Protection of ground shunts

Our manufacturing sites are certified ISO 9001, ISO/TS 16949, or AS/EN 9100, and ISO 14001

GES\_07242014

**GES** is a braided fiberglass sleeve with a silicone rubber coating designed to provide electrical insulation. The thickness of the silicone coating determines the dielectric strength, which ranges from 4 to 10 kV.

The high flexibility of GES allows relative diametrical expansion (approximately 1.3). This product provides electrical insulation for a wide range of industries and applications, including winding, engines and transformer outlets.
